Swordfish Flies Again

RESTORED ON SUNDAY TO THE END OF LONG WHARF

placed Sunday on the perch at the end of the long wharf the familiar landmark has been missing since just after Christmas. A group of volunteers decided to make the town a gift and Tommy Borges, Tommy Brownell, David Todd, John Clark, William Field and Phil Mello have done a job that must be seen to be truly appreciated. The swordfish, which has ridden through several hurricanes, been weathered and painted, sunbaked and repainted had seen better days when the group took it down. After removing the thick crust of many layers of paint and removing rotted wood, the fish was sanded smooth and fiberglassed with 6 coats of resin. Taxidermist Walter Egger of New Bedford was then pressed into service to spray paint the fiberglassed fish until it looks so real that it fools the eye. Take a trip down to the end of Long Wharf and enjoy the labor of love that has restored our harbor landmark to a glory that it never knew before. Many thanks on behalf of all the town to a group of skilled

VOTE TODAY TO RE-ELECT

BILL HUBBARD

SELECTMAN

I am asking that once again you give me the honor of serving you as your selectman.

During the past three years, I have gained further insight and experience in the workings of town government. This, along with my past service to the Town, has prepared me to continue to serve in this position.

My tenure on the Board of Selectmen has been through a period of change in Mattapoisett. I have attempted to guide that change with a constant awareness of our current problems as well as our future needs. I would continue serving the people of Mattapoisett in the same manner.

As for our current status in Mattapoisett, as you know, I am serving as Chairman of the Board and can report that our plans and programs that you have directed us to do are moving along on schedule and I feel we have a positive attitude now in the Town Hall and there is better cooperation.

I am a life long resident of Mattapoisett and this Town has been very good to me and my family.

It has been an honor serving the people of Mattapoisett as your selectman and I ask your support in this election so I may continue to serve the Town in the future.

Best personal regards,

William F. Hubbard

ski were present to consult with the Board of Selectmen. Mr. Sheridan said that officials in Boston were unable to furnish the terms of the new regulations and until these terms are known the contract between Mattapoisett and Tighe and Bond, which is completed, cannot be signed by the two parties. In the meantime, the town will send Town Counsel Donald Fleming to Boston to see if he can learn anything about these new regulations. Mattapoisett, now under a time table and deadline from the United States Environmental Protection Agency, is trying to move ahead as rapidly as possible with the sewer system. Tighe & Bond engineers have been and will continue to work on whatever projects can be accomplished until the new government regulations are known and revealed and can allow the engineering firm and Mattapoisett to sign their contract. The firm has been working with Selectman R. William Blasdale on the Fairhaven negotiation between Mattapoisett and Fairhaven on the proposed tie-in with the Fairhaven sewerage treatment plant. The third draft of that agreement is now ready for review and correction and the Board of Selectmen will meet with Tighe & Bond officials after the town meeting and election to go over that agreement in detail.

BAR CLOSING SET AT 1 A.M.

Selectmen unanimously approved a motion to revert to a 1 A.M. closing, starting May 1st, for holders of town liquor licenses. Letters will be sent to each proprietor to notify them of the change.

identification and weather predicting. Although home weather predicting is not 100% accurate and will never put the TV weatherman out of business, predicting the weather can be an interesting and often rewarding hobby. By using cloud types, wind direction and barometer readings the Museum staff will show the people how to predict the weather for the day with a fair amount of accuracy and a minimum amount of guesswork. SIPPICAN CHORAL SOCIETY TO PERFORM AMERICAN THEATRE MUSIC IN SPRING BICENTENNIAL CONCERT

"Sing Out '76: 100 Years of American Theatre Music" is the title for the Sippican Choral Society's annual spring concert to be held May 15th at Old Rochester Regional High School.

Directed by Mr. Peter West, the group will trace the history of theatre music from its origins in the 1860's and 1870's to the present day. Beginning with selections by Stephen Foster, the 50-member chorus will continue with numbers from early minstrel shows, from "Porgy and Bess" which was the first American opera, and from the best of Broadway. Many of the selections will be performed by the full chorus; others will be sung by smaller all male and all female

We have given this a lot of thought, and the experience and qualifications that Julia has to offer brought us to the conclusion that Julia would be our best candidate for this high town office. Why?

Julia was our very able chairman of the FINANCE COMMITTEE.

Julia has furnished excellent input to our Master Plan Committee.

This is why we are voting for Julia C. Enroth and ask you to vote for Julia on Wednesday, April 14, 1976.

PICK A BOAT THAT'S FUN

but also pick an insurance agency that specializes in marine coverage

That's something we've been doing for years, writing policies that take the worry out of being a boat owner and seafarer. We know all about the bad things that can happen to those who venture out on the water in small crafts. And, while we can't prevent storms, chase pirates, or rescue you at sea, we can provide the kind of insurance protection that takes some of the risk out of going to sea.

O.R. Girls' Track

On Tuesday, the Old Rochester Girls' Track Team opened their 1976 season on an impressive win. The score was ORRHS 114 - Nauset Regional 19 - Whitman Hanson 15.

This year's team had 75 girls trying out. Of this amount, about 60 girls have made it. Our track program has always been a successful one with girls entering the Regional and State Meets every year.

This is our eighth year of Girls' Track and we have established a record of winning over 75% of our meets through the years.

The team has good balance, depth, experienced veterans, and a large group of promising young girls.

I am extremely pleased with the staff this year. They have been great.

Fritz Schlaegel received two other honors. The first was that he was the only unanimous choice to the Regional All Star team. The second honor was that he received the team's Most Valuable Player Award. Fritz was awarded a trophy for his achievement.

Next year's co-captains were chosen by Coach Shockro and were made known at the banquet. They are Jeff Pina and Wayne Caswell.

Home Heat Loss Scan

This week, the Massachusetts Project Conserve toll-free hot-line, 1-800-952-7424, was inaugurated. Manned by architectural students from the Boston Architectural Center, the toll-free hot-line is available from 9:00 A.M. to 9:00 P.M. seven days a week.

The students are well-trained to assist callers in filling out the Project Conserve questionnaire when it arrives in the April mail. In addition, the students can provide questionnaires if one has not arrived by April 19 and can assist callers who wish to request an infra-red scan of their home's heat loss by "Red Rover", the Project Conserve van which is touring the state.

The questionnaire which is being sent to every single-family homeowner in Massachusetts contains 29 easy-to-answer questions which take about 15 minutes to fill out. They include topics such as age of the home, number of stories, doors, windows, attic, and temperature usually maintained. Within 6 weeks after returning the questionnaire, the homeowner will receive an individualized "Home Energy Report" containing suggestions for steps to reduce heating and cooling bills. Resultant savings in fuel bills can be up to 20 per cent.

Project Conserve is sponsored by the Massachusetts Energy Policy Office and funded by a grant from the Federal Energy Administration. Massachusetts is the first state in the nation to receive the program.
